

PREAMBLE

GCRC THURSDAY NIGHT NET

CQ-CQ-CQ, this is _____ (*your call-sign*), Net Control Station this evening for the **Genesee County Radio Club Thursday Night Net**. This is a directed net, so please listen and follow directions of the Net Control Station. My name is _____ (*your name*), and my call-sign is _____ (*your call-sign*).

This net meets here on this repeater each Thursday night at 7:00 PM local time. Both of our repeaters, the one operating on 147.340 with a 100 hertz pl tone, and the one operating on 444.200 with a 107.2 hertz pl tone, are linked during this net. Along with National Traffic System message handling, this is an open and general discussion net. Members and non-members of the Genesee County Radio Club are all invited to check-in. Again, this is a directed net, so please listen and direct all communications through the Net Control Station.

But before I start with any regular check-ins....

Is there any emergency or priority traffic? Please call me now....

Is there any regular traffic or are there any NTS announcements? Please call me now....

Are there any mobile, portable or short-time stations? Please call me now....

Ok, I will now start regular check-ins, but please help prevent doubling by making sure that you actually “have” the repeater before you speak. You can do this by keying your mic and saying “this is” or something similar, and then un-keying, before you proceed. Then, please speak slowly, clearly, and at writing speed....give both your call sign and your name....during the net I will call the station check-in list three times for individual station comments. Then I will add to the list if there are more check-ins during the net. Once again, my name is _____ (*your name*) and my call-sign is _____ (*your call-sign*). Please call me now:

(NCS: Remember to ID every 10 minutes, and mention any pertinent GCRC announcements. If any NTS traffic is offered to the net, the NCS should first ask if anyone can take it, and if there are no takers, the NCS should then ask the QNI with traffic to contact either K8LJG- John at 810-736-0026 or K8LJG@comcast.net, or N8OSL-Joe at 810-742-3866 or N8OSL@comcast.net, or Kevin at 989-493-7132 or kc8nfn@live.com, and arrange to pass the traffic.

I'm now going to close tonight's edition of the **Genesee County Radio Club Thursday Night Net**. Our thanks to each of you for your participation this evening. We look forward to your checking in again next Thursday night. I will now return this repeater to its normal status. This is _____ (*your call-sign*). Good night.
